Att: Mr. William T. Bush
District Engineer

Re: Geauga County/Bainbridge District #3
The Mogul Corporation sanitary tie-in facility.

Dear Mr. Bush:

On July 2, 1974, you received our plans for changes in our sanitary sewer system to facilitate tying into the Geauga County Sanitary Sewer District #3.

This was approved by Ohio EPA on August 19, 1974 by Mr. Ira L. Whitman, Director.

The approval became void on March 1, 1975, unless the facilities were constructed as proposed prior to that time.

We have been in contact with Geauga County and as of yet, the sanitary sewer system has not been accepted by the County for tie-in by the community.

We were, and are unable, to proceed with our plans for renovation of our system until such time that the sewer system is ready for acceptance of our effluent. Therefore, we request a six-month extension on the approval of the plans as previously submitted.

We will not proceed with any construction or changes to our existing facility until we are notified by Ohio EPA that the extension has been granted.

Thank you for your attention to this matter.

Sincerely,

THE MOGUL CORPORATION
